Construction Management

Association of America (National Board of Directors)

Joseph L. Seibold, PE

Executive Vice President

Mr. Seibold's combined years of leadership and experience in construction management and claims allow him unique insight into each project. Throughout his more than 30 years of experience, he has served as a construction manager, senior claims analyst, and an expert witness on a variety of public works projects such as healthcare facilities; a variety of public/institutional buildings; airport facilities, highways, and bridges; ports; railways and transit; and water supply and wastewater treatment facilities. In addition, Mr. Seibold is the past national president of the Construction Management Association of America (CMAA).

Mr. Seibold has provided expert testimony in all forums of dispute resolution on behalf of both owners and contractors; including testimony regarding the standard of care for construction management practices. His experience includes preparing and supervising the evaluation and calculation of construction-related delay and disruption damages on more than 100 projects. He has participated in all forums of dispute resolution including mediation, Dispute Review Boards, arbitration, mini-trials and litigation. His specific efforts have included providing assessments of potential exposure, recommending strategies to resolution and providing expert testimony for both private- and public-sector owners. In addition, Mr. Seibold has authored and presented numerous articles regarding construction management as well as claims analysis and resolution.
